

The AudioWorks

Events

We are hosting, or associated with, some great events over the next couple of months. All will be tickets in advance, booked through the shop.

Faustus - Live Music at West Heaton Tennis Club - 7th March

FAUSTUS are an acoustic group featuring three of the finest musicians currently working on the vibrant British folk circuit. They are **Benji Kirkpatrick** (*guitar/mandola*), **Paul Sartin** (*fiddle*) and **Saul Rose** (*melodeon*). Benji and Paul are members of multi-award winning folk big band BELLOWHEAD whilst Saul has played for many years with the legendary WATERSON: CARTHY and is currently also a member of SETH LAKEMAN'S band. They are a powerful trio with great songs, superb playing and strong three part harmonies.

The band have released two superb albums (*check them out on Napster or Spotify*) and the West Heaton gig is the first night of a national tour. Tickets are just £12 each.

MusicAle II - An Evening of Fine Music and Craft Beer - 20th March

Our second MusicAle evening, this time featuring products from Avid and Focal. We will have Jay from Quantum Brewing Company - the finest craft beer brewer in Manchester in my opinion (which means he is one of the best in the UK!) - on hand to guide us through some beers.

Conrad Mas - designer and owner of Avid - will be with us to play and discuss his products which include some of the best turntables and phono stages out there.

Dave Speirs from Focal will also be with us showing some of the latest loudspeakers from Focal, a company who's products we have long admired.

The venue is The Magnet Free House in Stockport, with very good public transport links. Tickets are £10 which includes the beer tasting, and are free of charge for anyone not indulging.

Meet the Producer - Bert van der Wolf - 30th April

Bert is owner of NorthStar Recording services and the ultra high quality Turtle Records label. We are delighted to host this event with dCS, producers of the finest digital replay systems. A dCS Vivaldi system will be on hand to demonstrate Bert's achievements.

Venue is yet to be confirmed, but it will be free of charge. Please note that availability of tickets is likely to be limited.

Don't forget, you can keep up with the latest news from The AudioWorks by visiting our website. For up to the moment news (and comment about other things that are important to us) you can follow us on Twitter (@TheAudioWorks)
